## PROJECTS

### Picha stock (pichastock.com)

📅 08/2022 - Present 📍 Location

- Implemented a seamless photo uploading functionality using AWS S3, enabling users to upload their photos and videos in an optimized way.
- Collaborated with business/marketing teams, and developed tailored technical solutions. Created custom scripts for automation, enhancing efficiency.
- Architected the entire payment UI and integrated Paypal and Stripe, resulting in a seamless payment experience. The customized UI and streamlined payment process led to efficient and satisfying experiences for customers.
- Developed Dashboard, where Contributors can see all the contributed videos and photos as well as can keep check on all the orders and views.
- Developed Panel, which was specially designed for users. Users can see their order history and can download the invoice of their orders.
- Implemented workflows to track ongoing tasks and aided in designing of the solutioning documents for each task, resulting in efficient team collaboration.
- As the Frontend Lead, I oversaw the development and redesign of pichastock.com the website, implementing features to sell licenses for your photos and videos.
- Solved a bunch of problems for the internal team by building Dashboard interfaces for in-house users. Additionally. Developed the entire dashboard for our team to aid their efforts. The dashboard interfaces streamlined processes and improved productivity for all the teams.
- Tech Stack Used - ReactJS, NodeJS, Custom CSS, Redux.
- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
